Profile

M2 student in the MSc Digital Business & Data Management at Audencia Business School, after a Master in Management. My internships at Doctolib and Voxsight gave me experience in CRM, project management and consulting. Organised, at ease with people and a team player, with experience in marketing, research and reporting in France and abroad.

Experience

Jan 2026 – Jul 2026
Internship

Junior Marketing Consultant · Voxsight
Nantes, France

- Ran qualitative and quantitative desk research at a consulting firm specialised in healthcare
- Conducted in-depth interviews with healthcare professionals
- Wrote reports and analyses for clients

Key skills: qualitative and quantitative research, interviewing, analysis and synthesis, report writing

Jul 2025 – Dec 2025
Internship

Salesforce Support Associate · Doctolib
Nantes, France

- Built data summaries and reports to support strategic decisions and cross-team planning for internal Salesforce administration
- Worked with healthcare professionals and business stakeholders to optimise CRM and data systems, improving visibility of the patient journey
- Took a deep dive into digital health workflows, clinical communication tools and adoption metrics

Key skills: CRM, data analysis, communication, rigour, adaptability

Projects

Apr 2025
1st place

Winner, Strategy & Ethical Challenges Hackathon
JM Polymers × Audencia · Nantes, France

- Built strategic growth plans using cross-functional data from the business units of Cabamix and JM Polymers
- Developed a complete ethical business model by analysing market and industry data and internal revenue streams

Key skills: teamwork, strategic analysis, financial analysis, leadership, communication

Apr 2025
3rd place

Kering Second Life Project
Capgemini × Audencia · Nantes, France

- Designed a “Second Life” circular economy business model, based on an analysis of revenue streams and environmental profit & loss statements
- Proposed changes to existing strategies through stakeholder management and analysis
- Collaborated with sustainability consultants and team members

Key skills: teamwork, stakeholder management, business case modelling, data analysis

Business case

Sephora Digital Transformation Business Case

- Traced a decade of beauty tech innovations and drew actionable insights: which technology preceded each innovation, and the average time to market
- Mapped competitors in the beauty tech space and Sephora's 2026 position, including its AR and AI partnerships
- Compared Sephora's costs and revenues with its peers to find gaps, and proposed plans to avoid likely bottlenecks

Case study

Doctolib Digital Business Model Study

- Mapped Doctolib's business model and value proposition, and talked with employees to understand how it grew
- Identified three main challenges and how to overcome them: data protection, unfair competition and possible monopolisation, and expansion into countries with complex public healthcare systems such as the NHS
